

Hi John,

OK, OK... I know you are busy... but this is worth a read...

Four quick messages from the AlkaWay team

1. The UltraStream

Our super-popular UltraStream filter, alkalizer and molecular hydrogen-rich water systems will run out before Christmas. Simple fact: our factory in the US is having trouble keeping up with our sales.

Just to add to the urgency factor, Australia Post has already informed us that **Dec 17** is the last day we can hope to deliver goodies and have them get to you by the big day, so that will also see some people disappointed unless you order quickly.

Get in now if you are thinking of buying an UltraStream or two as Christmas presents. We know how much our UltraStream customers love their water and would like to share that love. Don't miss out. Our next container load arrives after Christmas.

2. Stuck for Something to Give Mum?

Treat Mum to some natural skincare pampering. She's worth it, and remember, she's the only one you have.

We've got Q-Mist and AlkaGlam on special at a very Merry Christmas price of \$69.00 each.

The Q-Mist hydrogen-rich water diffuser takes skin care to a new level. Infused in pure water with billions of nanodroplets of molecular hydrogen, your skin can now be revitalized like never before. And... we also need to tell you that we will run out of this popular item before Christmas.

The AlkaGlam Spray is a hydrogen-rich mineral moisturizing refreshing mist. Simply fill the bottle with filtered water and spray multiple times per day to hydrate your skin and setup makeup. The mist will highlight and enhance colours in makeup. The bottle contains magnesium and tourmaline minerals. It is refillable and much more economical than single fill big cosmetic brand mist sprays.

3. Summer's coming, So are the bugs, parasites and amoeba in your water supply or tank water!

Over the warmer months, potentially more chemicals are pumped into the town water supply to combat pathogens. Protect yourself and your family against pathogens and the chemicals used to treat your water supply. [Whole House Safe Water Systems - learn more.](#)

Many people look at our Whole House Safe Water Systems but procrastinate about making the big purchase decision. It all seems so... postponable!

We feel your pain, so we're gifting you with a **12% discount** on our whole of house filtration systems. Valid until the end of January 2019! We have three carefully configured systems - depending on your water source and household needs.

Register for a free, no-obligation consultation to discuss your options.

Make having healthy and safe water for your whole house your early New Year's resolution.

Make having healthy and safe water for your whole house your early New Year's resolution.

4. Thanks for being a part of our lives!

We appreciate every one of you and love the fact that you've allowed us to help you to better health... one glass at a time.

Happy Christmas from everyone here at AlkaWay.
