

## Q-Mist Hydrogen Rich Water Diffuser

INSTRUCTION MANUAL **CE**

READ THIS MANUAL CAREFULLY BEFORE OPERATING THE DEVICE.

## Thank you for purchasing the Q-Mist

### Getting Started:

- Remove device from the giftbox.
- Store the packaging and user manual for future reference or use.

### What's in this box?

- Q-Mist Hydrogen rich water skin diffuser
- Micro USB charging cable
- Cloth protection pouch
- User manual

### What does it do?

- Allow deep skin moisturization and penetration.
- Ultrasonic vibration 110,000 times per sec.
- Produce high concentration of Hydrogen Rich water as an Antioxidant property and help neutralize free radicals in skin.
  - Hydrogen Content: 400 - 800 ppb
  - Antioxidants (ORP) -200 to -400 mV
- Slows aging process, relieving roughness and dry lines caused by long term dryness of skin.
- Prevent UV damage of skin and build up of free radicals.
- Refreshing Spray.

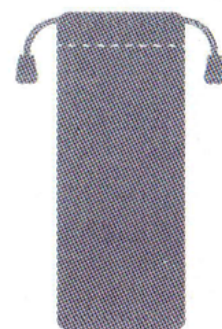

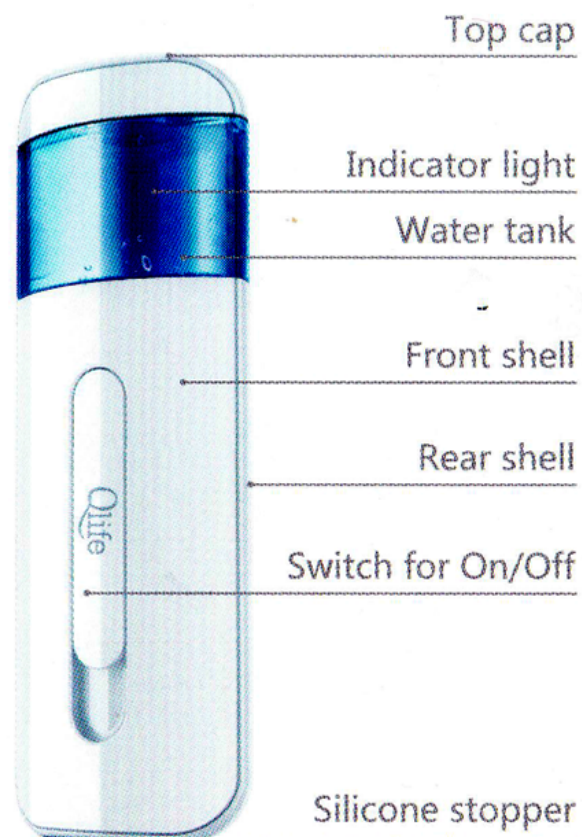

---

## Safety instructions

When using electrical device basic safety precautions should always be followed

- \* Ensure the device is not too close to heat emitting appliances or placed in direct sunlight.
- \* Check that the voltage indicated on the data list with that of the local network before connecting the device to the mains power supply.
- \* Do not leave the device in a humid environment while connected to the power supply.
- \* Do not immerse the whole device in water or any other liquids.
- \* It is imperative to unplug the charging cable before it is used and cleaned.
- \* Close supervision is required when using this device near children.
- \* Never leave the device within reach of children.
- \* Repairs to electrical appliances should only be performed by qualified personnel. Improper repairs may place the user and/or device at serious risk.
- \* This device intended for household use, office use, travel use, outside use, all kinds of use as it's a product you can always carry easily. But it can't be used for industrial or commercial purposes.
- \* Do not operate this device with a damaged USB port, after a malfunction or after being dropped or damaged in any way.
- \* Do not use this device for anything other than its intended use.
- \* This product is not a toy.

## Product Description

Cloth protection pouch

Micro USB charging cable

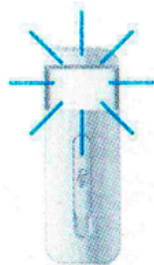

## Technical Specification

Model:	WHM-1803	Water Tank Capacity:	16ml
Main Material:	PC	Atomization Amount:	0.8-1.2ml/min
Product Weight:	60g	Hydrogen concentration:	400 to 800 ppb
Power Supply:	DC5V	Oxidation Reduction Potential:	-200 to -400 mv
Battery Capacity:	500mAh	Working Time:	1.5H
Product Size:	42*22*122mm (L*W*H)	Charging Time:	2.5H

---

## LIGHT INDICATOR

Vaporizing state:

- 1) Blue light on – device is turned on & operating.
- 2) Blue light flashing – device is low on battery, needs to be charged.

Charging state:

- 1) Red light on – device is charging.
- 2) Blue light on – device is fully charged.

---

## HOW TO USE

Before Applying Makeup

Atomizing is available in an area 5cm distance from the face.

After Applying Makeup

Atomizing is available in an area 10cm distance from the face.

---

## WATER SOURCE

Mineral Water

Tap Water

Distilled Water/RO  
Water

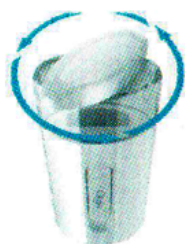

For best hydrogen & antioxidant moisturizing experience it is highly recommended to use the Q-Mist with mineral water.

Avoid using distilled or RO water with no minerals which could be difficult to generate high quality hydrogen water

---

## CLEAN AND MAINTENANCE

Turn counter clockwise to open the cap

Pour out any remaining liquids in the water tank

Clean the water tank once a month:

- 1) Fill water tank with diluted citric acid water or use white vinegar.
- 2) Let the cleaning solution sit for about 10 minutes.
- 3) Pour out the cleaning water and rinse thoroughly with clean water a few times.

---

## CHARGING INSTRUCTION

Method: Charge the device with a Micro USB cable

Charging time: 2.5H

Working time: 1.5H

---

## ATTENTION

- 1) This device uses super fine micro aperture nozzle to atomize and spray mist. Do not use any oils, facial toner, or water to avoid blocking the nozzle Diffuser.
- 2) Keep water dry and clean up the device after every use to avoid water getting inside the device and causing short circuit.

---

## CAUTION

Disconnect the device from the power source when cleaning.

If the device becomes dusty, wipe it with a soft and dry duster. Do not use any wax, sprays, or abrasive cleaners on the unit.

This product is not intended for commercial use, for daily use.

## Frequently Asked Questions

Questions	Answers
How long does it take to be fully recharged? How long can it last from fully charge?	It takes 2.5hours to be fully charged. It can last for 1.5hours from fully charge, and 10-15 minutes of continue use for each fully water tank.
What is Hydrogen Water?	Hydrogen water originates from Japan. It is known to be fountain of youth and is proven by numerous medical research. Hydrogen water has strong antioxidant property which helps neutralizing free radicals in the skin, slowing down aging process. Also it renovates skin damages and makes effect on anti-acne.
What is the best water used to make hydrogen water?	The best way to generate hydrogen rich water is with mineral water:  Never use distilled water which could be difficult to produce hydrogen. Never use hot water with temperature more than 50° C , soda, or salty liquids.
Can the Q-Mist be used after I apply makeup?	Yes, it can.  Before makeup Atomizing is available in an area 5cm distance from the face.  After makeup Atomizing is available in an area 10cm distance from the face.
How to clean the water tank?	Empty out the tank and pour diluted citric acid or white vinegar into the tank for about 30 minutes and let it sit. Pour out the cleaning solution and rinse thoroughly. Then air dry.  * You should clean the water tank at least once a month for optimal use
